Story:

  Samir is a young octopus with a unique blend of human and cephalopod features. He wears a shoulder bag filled with maps, seashell trinkets, and tools for exploration. Samir is adventurous and curious, always eager to explore hidden caverns, sunken ships, and long-lost cities.

Samir's mother, Layla, was a marine biologist who fell in love with the wonders of the sea while studying the coral reefs of the Red Sea. During a deep-sea research expedition, she encountered Samir's father, Bahri, a noble and wise octopus who guarded the ancient underwater city of Lulua. After a magical encounter blessed by an old sea spirit, Samir was born—a rare blend of human intelligence and octopus adaptability.

  Samir's ultimate goal is to explore the entire sea world and uncover the ancient secrets hidden beneath the waves. He seeks to unite all the sea creatures—from the Mediterranean to the Arabian Gulf—by hosting a grand dinner, gathering sea tribes from different regions for a shared feast of peace and storytelling.
